

DEPARTAMENTO DE MATEMÁTICAS
UNIVERSIDAD DE ZARAGOZA

June 23, 2003

To whom it may concern:

Professor Miguel Gómez Lozano, from the University of Malaga, has fully participated at the Special Session 27,

Nonassociative Algebras and Their Applications,

of the First Joint Meeting of the Real Sociedad Matemática Española and the American Mathematical Society, held in Sevilla (June 18–21, 2003). In that session, professor Antonio Fernández López presented the joint work with professors Esther García González and Miguel Gómez Lozano entitled

3-graded Lie algebras with Jordan finiteness conditions.

A handwritten signature in blue ink, appearing to read 'Alberto Elduque', with a long horizontal flourish extending to the left.

Alberto Elduque
Organizer of the Special Session
